TONGXIN INTRODUCTION

Guangzhou Tongxin Sports Equipment Co. Ltd. was founded in 1993. With its headquarter located in Guangzhou, Guangdong, Tongxin has subsidiaries in many major provinces of China and distributors across the world. As one of the few large rubber track manufacturers that are widely recognized by the industry, we are dedicated to the research and development of rubber track surfaces and has successfully extended our business worldwide.

Our success lies in our proficiency and concentration. Different from many other companies' strategy of multi-directional product development, we have chosen to devote all of our financial and technical resources to the research and development of rubber track surfaces. Our focused efforts have led us to the successful development of a variety of rubber track surfaces that are designed to satisfy a wide range of specific requirements of our customers. Meanwhile, our high brand popularity and strong sales network have allowed us to put our well-built and environment-friendly products into markets in a timely manner for the customers to enjoy. As a result, the rapid growth of our company has been contributing to the upgrading of the products in this area. Since 2002, our track surface products have received professional certificates from national to international levels, including the IAAF (International Association of Athletics Federations) certificate in 2007.

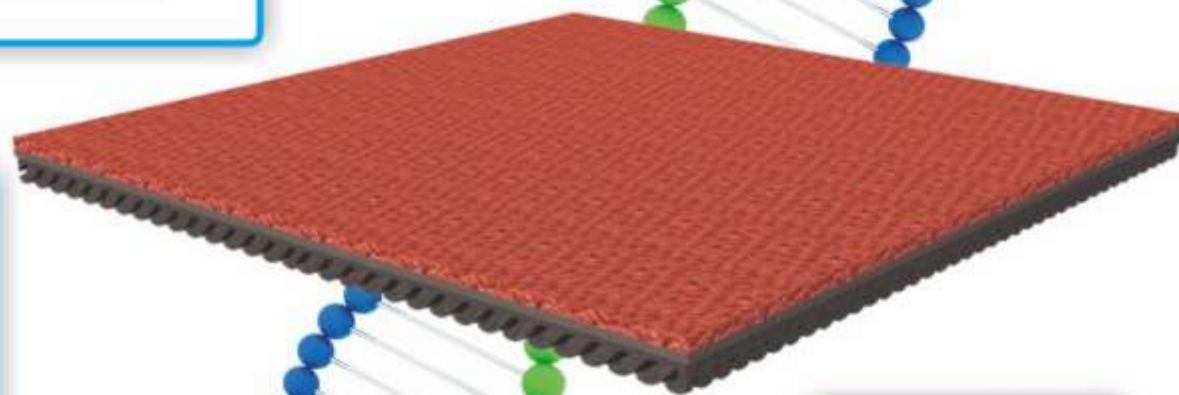

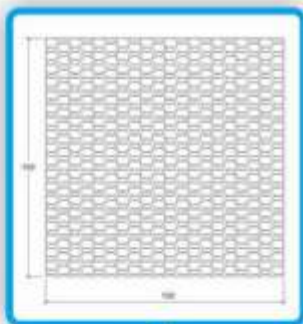

To this day, Tongxin has installed more than 2,000,000 m² (~110,000,000 ft²) of track surface. Our footprints have covered over 30 provinces throughout China and spread to all the continents around the globe. We have proudly constructed the tracks in many high-level stadiums which meet the standards for international games, such as Huizhou Olympic Stadium, Guangxi Olympic Sports Center, Guangzhou People stadium, Panyu Yingdong stadium, Zhejiang Jiaxing Sports Center, Guangdong Nanhai Stadium, etc.

"Dedication leads to perfection". With this motto, Tongxin will embrace an even brighter future.

RESEARCH & DEVELOPMENT IS THE CORE COMPETENCE OF TONGXIN.

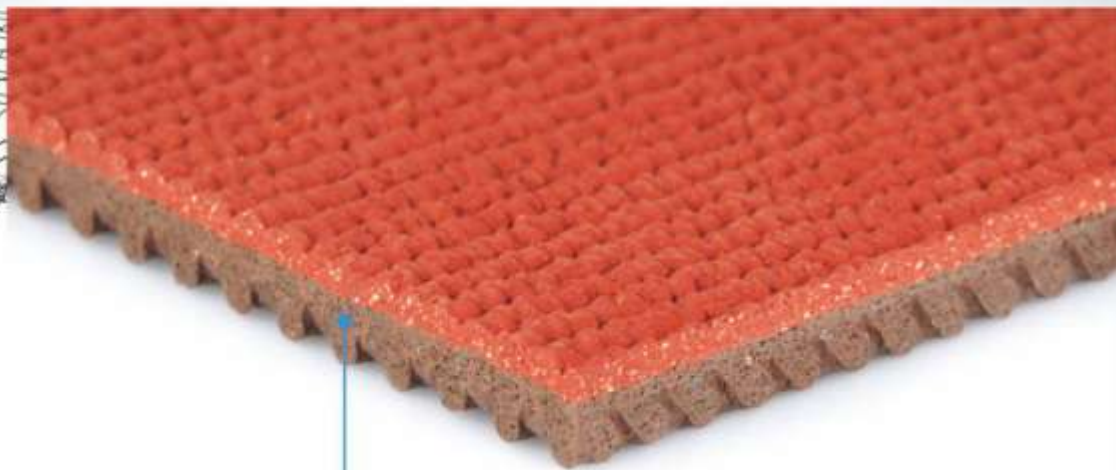

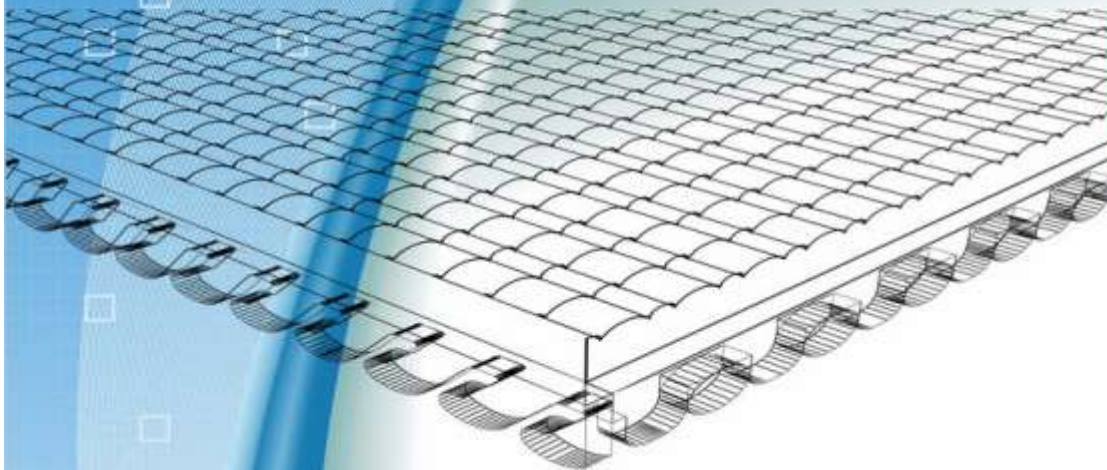

By studying running athletes closely, Tongxin has developed the unique ergonomic structure and successfully engineered it into our prefabricated rubber track surfaces.

ENVIRONMENTAL-FRIENDLY IS ALWAYS OUR CONCERN

Tongxin combines best raw materials into our formula. Natural rubber, synthetic rubber, environmental friendly inorganic pigments and additives guarantee our products a green nature.

RESEARCH & DEVELOPMENT

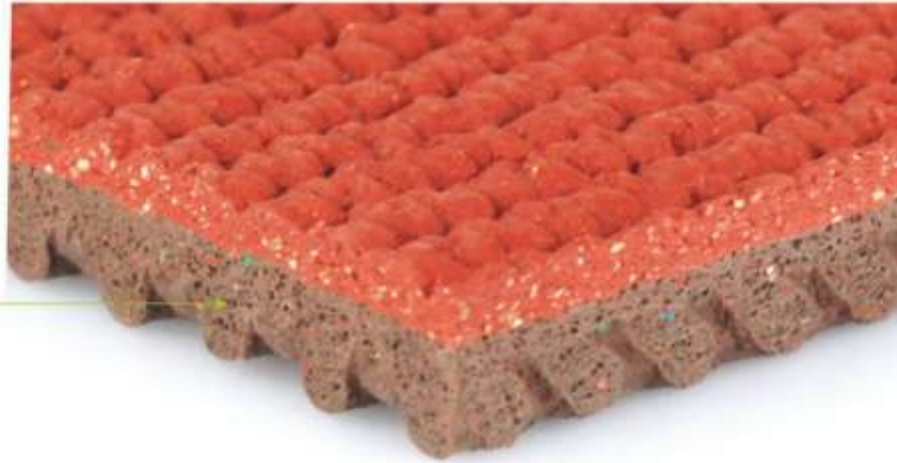

◆ TOP LAYER OF OUR TRACK PRODUCTS IS HIGHLY SPIKE RESISTANT. IT PROVIDES EXCELLENT FRICTIONS AND LASTS OVER 10 YEARS.

TOP THINK ALWAYS FOCUSES ON RESEARCH AND DEVELOPMENT TO GUARANTEE THAT OUR PRODUCTS HAVE TOP PERFORMANCES.

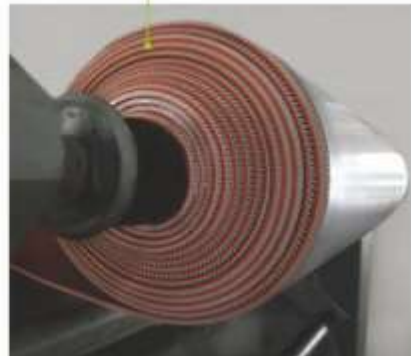

◆ BOTTEM LAYER IS MADE FROM CLOSE-CELL FOAMING PROCESS, IT PROVIDES HIGH SHOCK ABSORPTION, SMOOTH TRANSITION AND CONTINUOUS ENERGY FEEDBACK.

ENVIRONMENTAL FRIENDLY

- TOPTHINK IS AWARDED CHINA ENVIRONMENTAL LABEL BY MINISTRY OF ENVIRONMENTAL PROTECTION OF PRC.
- TOPTHINK ALWAYS USES TOP MATERIALS TO GUARANTEE THAT OUR PRODUCTS ARE ENVIRONMENTAL FRIENDLY AND FULLY RECYCLABLE..
- OPTIMIZED PRODUCTION PROCESS MINIZES WASTE AND ENERGY CONSUMPTION.

TOP QUALITY IS OUR PROMISES

TOPTHINK HAS A PROFESSIONAL TESTING LAB TO ENSURE EACH PRODUCT IS IN TOP QUALITY.

FRICTION TEST

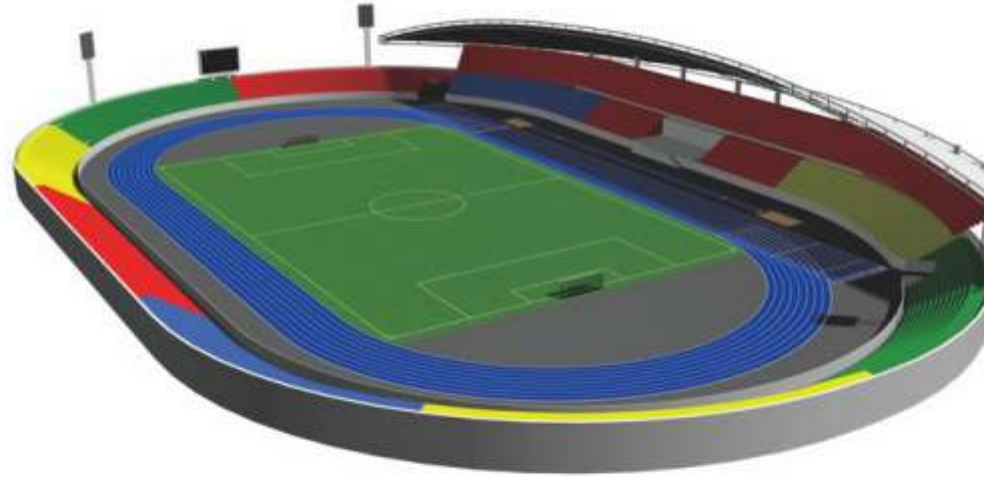

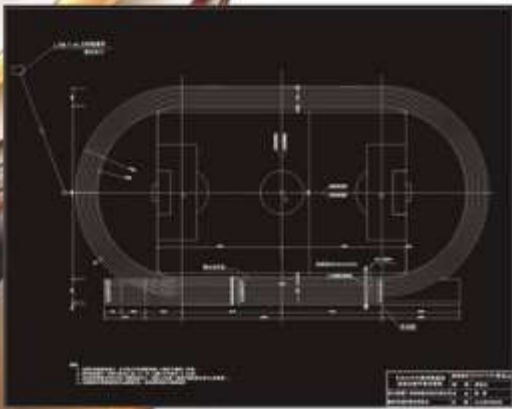

TOPTHINK TRACK HAS EXCELLENT TENSILE PROPERTIES

TENSILE TESTS ON TOPTHINK TRACK

CONSULTING, DESIGN & INSTALLATION

TOP THINK PROVIDES ONE-STATION TRACK SURFACING SERVICE TO OUR CUSTOMERS.

TOPTRACK

SPECIFICATION	TOPTRACK
SHOCK ABSORPTION	35-38%
DEFORMATION	1.2mm
TENSILE STRENGTH	1.58Mpa
ELONGATION	Over 321%
FRICTION	50%

*Specific numbers are tested based on the 13 mm sample products
Actual data of each production run may vary.

- TOP QUALITY & TOP PERFORMANCE
- ONE LAYER DESIGN
- INTEGRITY & BEST ATHLETIC PERFORMANCE
- TOP TENSILE STRENGTH
- TOP ELONGATION
- TOP SPIKE RESISTANCE
- LONGER LIFE, OVER 15 YEARS
- MORE ENERGY FEEDBACK

BUILT FOR:

- TRACKS FOR INTERNATIONAL SPORTS EVENTS
- MAJOR STADIUMS

DENSITY: 15KG/M³ AVAILABLE COLOR:

INSTALLATION CASE: HUI ZHOU OLYMPIC STADIUM

International Association of Athletics Federations

Class 2 Athletics Facility Certificate

The IAAF is pleased to certify hereby that the following track and field facility:

Name: HUIZHOU SPORTS CENTER

Key IAAF Member Federation: HUIZHOU CHINA, P. R.

Symbolic Track Project Manufacturer: SONGJIN, Guangzhou Tengxin Sports Exp., CHN

IAAF Track Project Certification Number: S-07 0071

Installation Company: Guangzhou Tengxin Sports Exp., CHN

Surveying Company: Surveying and Mapping Institute, Guangzhou, CHN

Date Issued: 20 April 2010, Min. JL, CHN

and meets all the technical requirements of IAAF Rule 140 for the relevant competitions. Please note that the Construction Category is L.

This certificate is issued in accordance with the terms and conditions of the IAAF Certification System of track and field facilities, implements and competition equipment.

IAAF Technical Committee Chairman

Date of Issue: 8 September 2010

PROTRACK

SPECIFICATION	PROTRACK
SHOCK ABSORPTION	35-42%
DEFORMATION	1.5mm
TENSILE STRENGTH	1.02Mpa
ELONGATION	Over 221%
FRICTION	50%

*Specific numbers are tested based on the 13 mm sample products. Actual data of each production run may vary.

- TWO LAYER CONSTRUCTION, EXCELLENT TENSILE STRENGTH AND ELONGATION RATE
- TOP LAYER IS HIGHLY SPIKE RESISTANT, MADE WITH NATURAL AND SYNTHETIC RUBBER
- BOTTOM LAYER IS MOLDED RUBBER WITH WAVE SHAPED GEOMETRIC CONSTRUCTION. IT PROVIDES EXCELLENT SHOCK ABSORPTION AND ENERGY FEEDBACK

BUILT FOR:

- COMPETITION TRACKS OF ALL LEVELS
- SPORTS FIELDS OF UNIVERSITIES, HIGH SCHOOLS, ETC

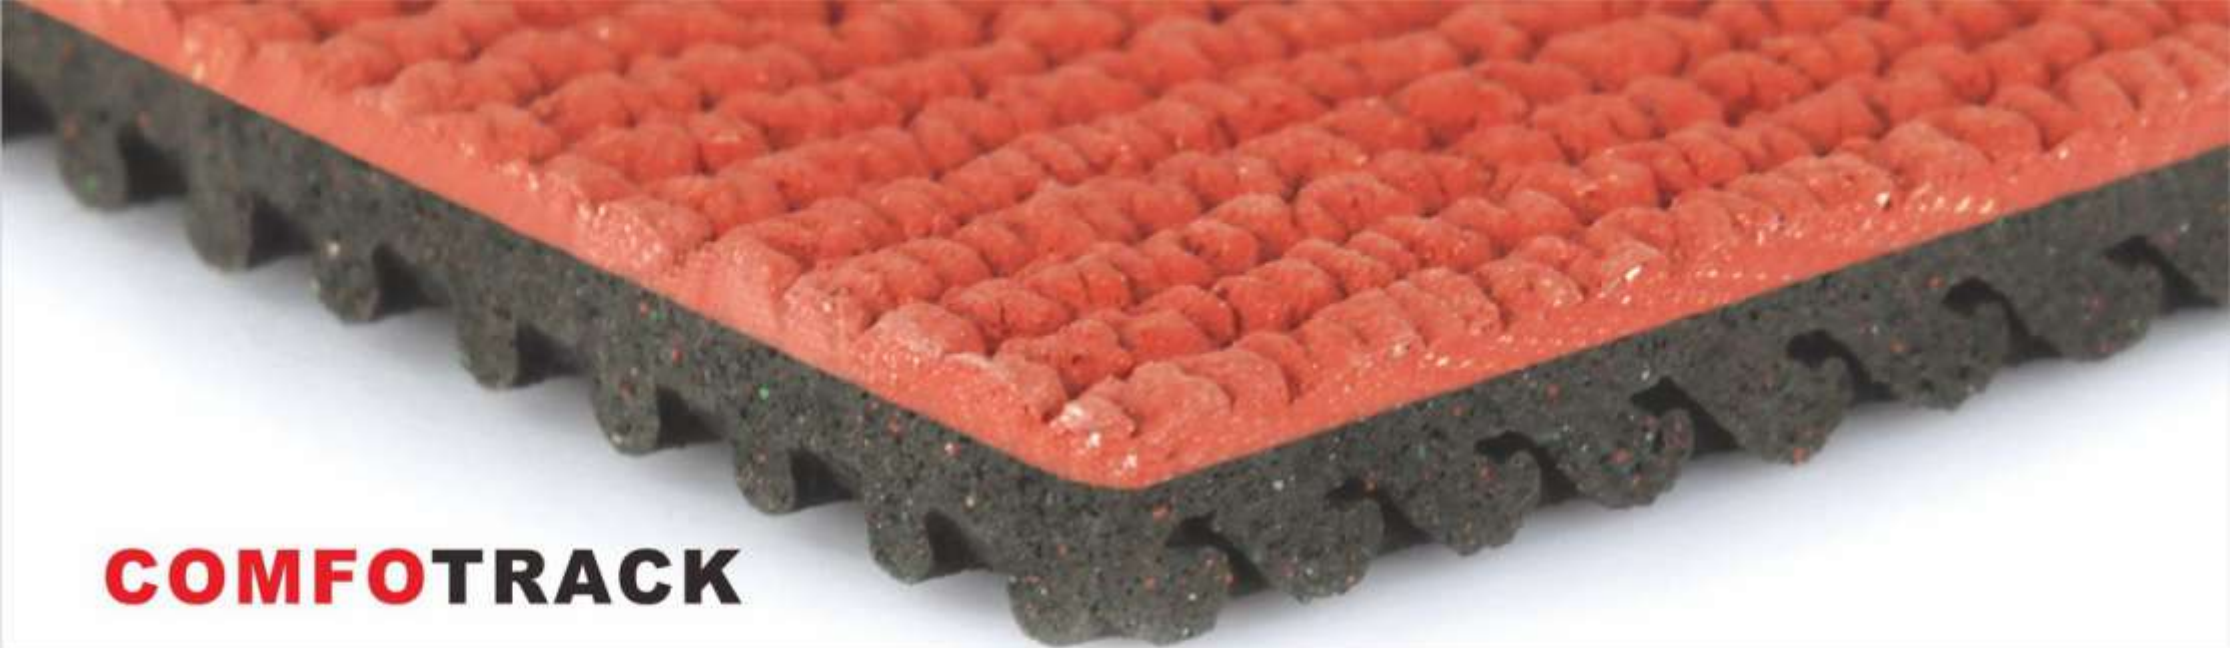

DENSITY: 13KG/M³ AVAILABLE COLOR:

**INSTALLATION CASE:
PANYU YINGDONG STADIUM**

COMFOTRACK

SPECIFICATION	COMFOTRACK
SHOCK ABSORPTION	38-50%
DEFORMATION	1.7mm
TENSILE STRENGTH	0.8Mpa
ELONGATION	Over 201%
FRICTION	55%

*Specific numbers are tested based on the 13 mm sample products
Actual data of each production run may vary.

- GREEN PRODUCTS
- SOFTER RUNNING SURFACES DESIGNED FOR TRAINING AND YOUTH
- PROVIDE MORE SHOCK ABSORPTION
- MEETS IAAF STANDARDS
- OVER 10 YEARS OF LIFE

BUILT FOR

- SPORTS FIELDS OF ELEMENTARY SCHOOLS, KINDER GARDENS
- PUBLIC RECREATION AREA
